The Watanabe Club is an informal non-affiliated group of dedicated shoulder arthroscopists who are committed to developing training in shoulder arthroscopy in the UK www.watanabeclub.com

Diagnostic & Therapeutic minimum requirements - to attend Diagnostic and Therapeutic, delegates must be Registrar/SHO level with MRCS completed. The Diagnostic and Therapeutic course includes detailed information on the principles and philosophy of shoulder arthroscopy, which will be of particular value to those surgeons and trainees undertaking shoulder arthroscopy for the first time.

Delegates will gain hands-on experience in practical techniques using models and cadaver material, and are encouraged to bring case studies on disc for discussion.

The high proportion of faculty members to delegates (1:2) will ensure direct interaction and learning.

Fee: £200.00
